### Interview process

Recruiter Phone Screens (45 mins) - Initial screening based on resume and background. Coding questions about data structures and algorithms.

Rakib  
May 17th 22

## Google I SDE - 1

Algorithms - Coding questions solved on a whiteboard.

Design - Junior engineers will be asked Object Oriented Design questions.

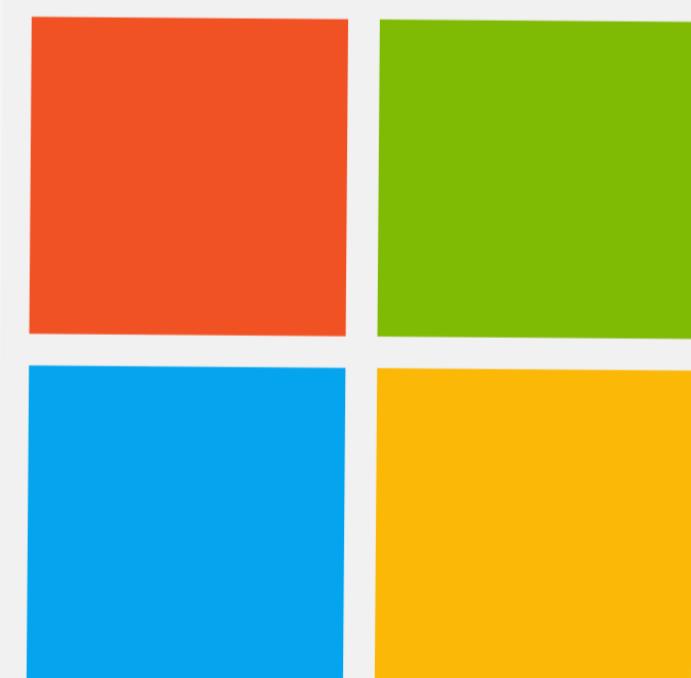

Emon  
Mar 20th 22

## Microsoft I SDE - 1 (Intern)

### Online Coding Test

This was coding round and was conducted on Cocubes platform. It is not IDE but kind of white board coding platform.

Interview process

Recruiter Phone Screen (45 mins) - Initial screening based on resume and background. Coding questions about data structures and algorithms.

Technical Phone Interview or Online Assessment (90 mins) – Algorithm. You will be asked 2-4 coding questions related to data structures and algorithms to be solved within 90 mins.

Onsite Loop (4-5 interviews of one hour each) - Coding, design, and behavioral questions. Algorithms - Coding questions solved on a whiteboard.

Design - Junior engineers will be asked Object Oriented Design questions, whereas senior engineers will be asked System Design questions.

Behavioral questions related to your motivation, leadership, challenges, and how you have been resolving conflicts.

Lunch Interview - You will be taken to lunch halfway through your interviews. You'll be interviewed during lunch. Expect design or behavioral questions.
